

B
Candidate Core Competencies¹

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
Screening/Identification (SI)					
SI.1 Demonstrates awareness of common signs and symptoms	Peer/service user	✓	✓	✓ e.g., evidence of burns	✓ e.g., signs of alcohol dependence
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist	✓	✓	✓	✓ ability to identify problematic behavior related to alcohol use
	Social worker	✓	✓	✓	✓
	Occupational therapist	✓	✓ psychosis symptoms and functionality in an occupational therapeutic setting	✓	✓ e.g., signs of alcohol dependence
	Clinical/health officer	✓	✓	✓	✓

¹This table presents candidate core competencies discussed by one or more workshop participants. During the workshop, all participants engaged in active discussions of candidate competencies. In some cases, participants expressed differing opinions about whether a particular competency could be useful and included in the list. However, since this is a summary of workshop comments and not meant to provide consensus recommendations, workshop rapporteurs endeavored to include all candidate core competencies discussed by workshop participants across providers and disorders. This table and its content should be attributed to the rapporteurs of this summary as informed by the workshop.

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.1 Demonstrates awareness of common signs and symptoms	Nurse	✓ identification of depression syndrome	✓ with or without screening tools (e.g., psychosis questionnaire, Community Assessment of Psychic Experience (CAPE)); includes identification of syndromes for psychosis	✓ includes understanding of common types of epilepsy; detection of patients with epilepsy in the community	✓ includes identifying patients who are medically compromised because of alcohol use, correctly identifying various stages for different interventions
	Medical doctor/general practitioner	✓ active case finding in patients with high-risk conditions	✓ with or without screening tools (e.g., psychosis questionnaire, CAPE)	✓ includes understanding of common types of epilepsy; detection of patients with epilepsy in the community	✓ includes identifying patients who are medically compromised because of alcohol use, correctly identifying various stages for different interventions
	Psychiatric nurse	✓ includes identification of depression syndrome	✓ includes identification of syndromes for psychosis	✓	✓ includes identifying patients who are medically compromised because of alcohol use, correctly identifying various stages for different interventions
	Psychologist	✓	✓ with or without screening tools (e.g., psychosis questionnaire, CAPE)	✓ includes knowledge of seizure types	✓ includes identifying patients who are medically compromised because of alcohol use, correctly identifying various stages for different interventions

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.1 Demonstrates awareness of common signs and symptoms	Neurologist	✓	with or without screening tools (e.g., psychosis questionnaire, CAPE)	includes understanding of common types of epilepsy, detection of patients with epilepsy in the community	includes identifying patients who are medically compromised because of alcohol use, correctly identifying various stages for different interventions
	Psychiatrist	active case finding in patients with high-risk conditions	with or without screening tools (e.g., psychosis questionnaire, CAPE)	includes understanding of common types of epilepsy, detection of patients with epilepsy in the community, identifying physical features that might indicate an underlying condition other than epilepsy (e.g., skin lesions, deformities)	includes identifying patients who are medically compromised because of alcohol use, correctly identifying various stages for different interventions
SI.2 Recognizes the potential for risk to self and others	Peer/service user	✓	✓	✓	✓
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist	✓	✓	✓	✓
	Social worker	✓	✓	✓	✓
	Occupational therapist	✓	✓	✓	✓
	Clinical/health officer	e.g., suicidal ideation	e.g., homicidal ideation, suicidal ideation; includes assessment of level of severity	✓	includes identifying alcohol- related complications, comorbid conditions, related emergencies

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.2 Recognizes the potential for risk to self and others	Nurse	✓	✓ e.g., homicidal ideation, suicidal ideation; includes assessment of level of severity	✓	✓
	Medical doctor/general practitioner	✓	✓ e.g., homicidal ideation, suicidal ideation; includes assessment of level of severity	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
SI.3 Demonstrates basic knowledge of causes	Peer/service user	✓	✓	✓	✓
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist	✓	✓	✓	✓
	Social worker	✓	✓	✓	✓
	Occupational therapist	✓	✓	✓	✓
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.3 Demonstrates basic knowledge of causes	Psychiatric Nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
SI.4 Provides the patient and community with awareness and/or education	Peer/service user	✓	✓	✓	✓
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist	✓	✓	✓	✓
	Social worker	✓	✓	✓	✓
	Occupational therapist	✓	✓	✓	✓
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
	Peer/service user	✓	✓	✓	✓
SI.5 Demonstrates cultural competence	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist	✓	✓	✓	✓
	Social worker	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.5 Demonstrates cultural competence	Occupational therapist	✓	✓	✓	✓
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
SI.6 Demonstrates knowledge of other mental, neurological, and substance use (MNS) disorders	Peer/service user	✓	✓	✓	✓
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist	✓	✓	✓	✓
	Social worker	✓	✓	✓	✓
	Occupational therapist	✓	✓	✓	✓
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.7 Demonstrates the ability to screen for and use screening tools	Peer/service user	✓			
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist				
	Social worker	✓	✓		✓
	Occupational therapist	✓	✓		✓
	Clinical/health officer	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓	✓ screening for alcohol use disorders
	Nurse	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓	✓ for alcohol use disorder
	Medical doctor/general practitioner	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care, and for factors that maintain psychosis	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ for alcohol use disorder

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.7 Demonstrates the ability to screen for and use screening tools	Psychiatric nurse	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓	✓ for alcohol use disorder
	Psychologist	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ includes screening for cognitive deficits and developmental delay, screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ for alcohol use disorder
	Neurologist	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care, screening referred patients for identification/confirmation of epilepsy, and screening for and identifying neurological deficits that may be present in symptomatic epilepsy	✓ for alcohol use disorder

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.7 Demonstrates the ability to screen for and use screening tools	Psychiatrist	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ includes screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ includes screening for cognitive deficits and developmental delay, screening for other MNS disorders and for infectious and noncommunicable diseases that might complicate treatment and care	✓ for alcohol use disorder
SI.8 Demonstrates knowledge and skills in taking patient history	Peer/service user				
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist				
	Social worker	✓	✓	✓	✓
	Occupational therapist	✓	✓	✓	✓
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
SI.9 Demonstrates the ability to conduct a mental status exam	Peer/service user				
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist				
	Social worker	✓			✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.9 Demonstrates the ability to conduct a mental status exam	Occupational therapist	✓		✓	
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
SI.10 Recognizes patients who are relapsing and require inpatient care	Peer/service user				
	Community health care worker/health extension worker			✓	
	Pharmacist				
	Social worker			✓	✓
	Occupational therapist				✓
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
SI.11 Demonstrates knowledge and skills to assess patients and determine level of care needed	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.11 Demonstrates knowledge and skills to assess patients and determine level of care needed	Social worker	✓	✓	✓	✓
	Occupational therapist	✓	✓	✓	✓
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
SI.12 Identifies cases during home visits	Peer/service user	✓	✓	✓	✓
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist				
	Social worker	✓	✓	✓	✓
	Occupational therapist				
	Clinical/health officer				
	Nurse				
	Medical doctor/general practitioner				
	Psychiatric nurse				
	Psychologist				
	Neurologist				
	Psychiatrist				

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.13 Demonstrates knowledge and skills to identify high-risk patients or treatment complications (e.g., children, breastfeeding women)	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist				
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
SI.14 Demonstrates knowledge and skills to assess patients at risk of relapse	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer	✓	✓	✓	✓
	Nurse				
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse			✓	
	Psychologist				✓
	Neurologist			✓	
	Psychiatrist	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.15 Demonstrates knowledge and skills to conduct a physical exam	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist				
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
SI.16 Recognizes primary manifestations of other disorders (e.g., conversion disorder, anxiety)	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer				
	Nurse				
	Medical doctor/general practitioner				
	Psychiatric nurse				
	Psychologist				
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.17 Recognizes comorbidities that cause secondary epilepsy	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer			✓	
	Nurse			✓	
	Medical doctor/general practitioner			✓	
	Psychiatric nurse			✓	
	Psychologist				
	Neurologist			✓	
	Psychiatrist			✓	
SI.18 Recognizes physical features that might indicate an underlying condition other than epilepsy (e.g., skin lesions, deformities)	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer			✓	
	Nurse				
	Medical doctor/general practitioner			✓	
	Psychiatric nurse				
	Psychologist				
	Neurologist			✓	
	Psychiatrist				

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
SI.19 Recognizes serious neurological disorders that may be present with seizures or epilepsy (e.g., central nervous system infection, stroke, tumor)	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer			✓	
	Nurse				
	Medical doctor/general practitioner			✓	
	Psychiatric nurse				
	Psychologist				
	Neurologist			✓	
	Psychiatrist			✓	
Formal Diagnosis/Referral (DR)					
DR.1 Demonstrates knowledge of when to refer to next level of care/other provider/specialist	Peer/service user	✓ for diagnosis	✓ for diagnosis	✓ for diagnosis	✓ for services for alcohol use disorder
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist	✓	✓	✓	✓
	Social worker	✓	✓	✓	✓
	Occupational therapist	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
DR.1 Demonstrates knowledge of when to refer to next level of care/other provider/specialist	Clinical/health officer	✓ includes referring for behavioral problems to psychiatry if complex/treatment- refractory	✓	✓	✓ includes referring for behavioral problems associated with alcohol dependence to appropriate provider
	Nurse	✓ for diagnosis and specialized treatment plan	✓ when to refer to specialist for diagnosis when complexity of condition/case requires; includes referring behavioral problems to psychiatry if complex/treatment- refractory	✓	✓ includes referring behavioral problems associated with alcohol dependence to appropriate provider
	Medical doctor/general practitioner	✓ for formal diagnosis and treatment plan	✓ when to refer to specialist for diagnosis when complexity of condition/case requires; includes referring behavioral problems to psychiatry if complex/treatment- refractory	✓	✓ includes referring behavioral problems associated with alcohol dependence to appropriate provider
	Psychiatric nurse	✓ referral to psychiatrist for specialized treatment plan; includes referring behavioral problems to psychiatry if complex/treatment- refractory	✓ when to refer to specialist for diagnosis when complexity of condition/case requires; includes referring behavioral problems to psychiatry if complex/treatment- refractory	✓	✓ includes referring behavioral problems associated with alcohol dependence to appropriate provider

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
DR.1 Demonstrates knowledge of when to refer to next level of care/other provider/specialist	Psychologist	✓ referral to psychiatrist for specialized treatment plan; includes referring behavioral problems to psychiatry if complex/treatment- refractory	✓ includes referring behavioral problems in complex cases	✓ providing referral services to patients	✓ includes referring behavioral problems associated with alcohol dependence to appropriate provider
	Neurologist	✓ referral to psychiatrist for specialized treatment plan; includes referring behavioral problems to psychiatry if complex/treatment- refractory	✓ referral to psychiatrist for specialized treatment plan; includes referring behavioral problems to psychiatry if complex/treatment- refractory	✓ includes referring to other specialists for further treatment if appropriate; referring to psychiatrist for cognitive testing, management of pseudoseizures or severe psychiatric comorbidities	✓ includes referring behavioral problems associated with alcohol dependence to appropriate provider
	Psychiatrist	✓ referral to appropriate provider for diagnosis and specialized treatment plan	✓ referral to other specialists, such as clinical psychologist, for evaluation, and treatment (including group and individual psychotherapy), social worker, occupational therapist	✓ includes referral to other specialists for specialized treatment, referral of medically refractory cases and status epilepticus	✓
DR.2 Demonstrates knowledge of potential providers for specialized care within the community	Peer/service user	✓	✓	✓	✓
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
DR.2 Demonstrates knowledge of potential providers for specialized care within the community	Social worker	✓	✓	✓	✓
	Occupational therapist	✓	✓	✓	✓
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
DR.3 Demonstrates skills in assessment of relative levels of social, cognitive, and physical functioning	Peer/service user				
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist				
	Social worker	✓	✓	✓	✓
	Occupational therapist	✓	✓	✓	✓
	Clinical/health worker	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
DR.4 Demonstrates knowledge of required information for effective referral	Peer/service user				
	Community health care worker/health extension worker	✓	✓	✓	✓
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
DR.5 Demonstrates skills in using various assessment tools	Peer/service user				
	Community health care worker/health extension worker			✓	
	Pharmacist				
	Social worker				
	Occupational therapist		✓	✓	
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
DR.6 Demonstrates knowledge and skills in diagnosis of psychosocial factors related to condition	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker	✓	✓	✓	✓
	Occupational therapist	✓	✓	✓	✓
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist			✓	
	Psychiatrist	✓	✓	✓	✓
DR.7 Demonstrates understanding of and ability to apply contextually appropriate diagnostic systems (e.g., Diagnostic and Statistical Manual of Mental Disorders (DSM), International Statistical Classification of Diseases and Related Health Problems(ICD))	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
DR.8 Demonstrates knowledge and skills to make a formal diagnosis and formulation of differential diagnosis	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓ e.g., distinguish delirium and/or seizure activity from psychosis	✓	✓ diagnosing alcohol dependence and comorbid disorders
	Medical doctor/general practitioner	✓	✓	✓ includes exclusion of conditions that may mimic epilepsy (pseudoseizures)	✓ diagnosing alcohol dependence and comorbid disorders
	Psychiatric nurse	✓ includes diagnosis across the life course	✓	✓	✓
	Psychologist	✓ includes diagnosis across the life course, diagnosis of depression syndrome, comorbid mental disorders	✓ formulating differential diagnosis in consultation with team (usually clinical psychologist)	✓ includes diagnosis of cognitive deficits and developmental delay and of psychopathology	✓ includes diagnosis of alcohol dependence and comorbid disorders

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
DR.8 Demonstrates knowledge and skills to make a formal diagnosis and formulation of differential diagnosis	Neurologist	✓ includes ability to rule out depressive symptoms secondary to neurological condition or side effects of neurological medications, ability to diagnose other neurological comorbidities	✓ includes ability to rule out psychotic symptoms secondary to neurological condition or side effects of neurological medications, ability to diagnose other neurological comorbidities; for differential diagnosis, especially ability to distinguish psychosis from epilepsy and delirium	✓ includes ability to exclude conditions that may mimic epilepsy (pseudoseizures), to use information technology to improve diagnosis, and to diagnose patients with medically refractory epilepsy	✓ includes diagnosis of alcohol dependence and comorbid disorders
	Psychiatrist	✓ includes diagnosis across the life course, ability to distinguish unipolar and bipolar depression	✓ includes independent diagnosis, even when not classic presentation, and across the life course	✓ includes ability to exclude conditions that may mimic epilepsy (pseudoseizures), to use information technology to improve diagnosis, to diagnose patients with medically refractory epilepsy, and to diagnose psychiatric comorbidities	✓ includes diagnosis of alcohol dependence and comorbid disorders
DR.9 Demonstrates ability to determine severity level	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
DR.9 Demonstrates ability to determine severity level	Clinical/health officer	✓	✓	✓	✓ mild, moderate, or severe alcohol dependence
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓ includes diagnosis of comorbid mental disorders	✓	✓	✓ includes diagnosis of alcohol dependence and comorbid disorders
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
DR.10 Demonstrates ability to make a diagnosis according to an algorithm (not considered a clinical diagnosis)	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer	✓	✓	✓	✓
	Nurse	✓	✓	✓	✓
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
DR.11 Demonstrates ability to interpret laboratory results	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer				
	Nurse				
	Medical doctor/general practitioner	✓	✓	✓	✓
	Psychiatric nurse				
	Psychologist				
	Neurologist	✓	✓	✓	✓
	Psychiatrist	✓	✓	✓	✓
DR.12 Demonstrates knowledge about status epilepticus and other types of seizures	Peer/service user				
	Community health care worker/health extension worker			✓	
	Pharmacist				
	Social worker				
	Occupational therapist			✓	
	Clinical/health officer			✓	
	Nurse			✓	
	Medical doctor/general practitioner			✓	

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
DR.12 Demonstrates knowledge about status epileptics epilepticus and other types of seizures	Psychiatric nurse			✓	
	Psychologist			✓	
	Neurologist			✓	
	Psychiatrist			✓	
DR.13 Demonstrates ability to diagnose alcohol use disorders and related problems	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				✓
	Occupational therapist				
	Clinical/health officer				✓
	Nurse				✓
	Medical doctor/general practitioner				✓
	Psychiatric nurse				✓
	Psychologist				✓
	Neurologist				✓
	Psychiatrist				✓
DR.14 Demonstrates psychological interview skills	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer				

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
DR.14 Demonstrates psychological interview skills	Nurse				
	Medical doctor/general practitioner				
	Psychiatric nurse	✓	✓	✓	✓
	Psychologist	✓	✓	✓	✓
	Neurologist			✓	
	Psychiatrist	✓	✓	✓	✓
DR.15 Demonstrates ability to conduct a neuropsychiatric evaluation	Peer/service user				
	Community health care worker/health extension worker				
	Pharmacist				
	Social worker				
	Occupational therapist				
	Clinical/health officer				
	Nurse				
	Medical doctor/general practitioner				
	Psychiatric nurse				
	Psychologist	✓	✓	✓	✓
	Neurologist			✓	
	Psychiatrist	✓	✓	✓	✓

Candidate Core Competency	Provider Types	Condition(s)			
		Depression	Psychosis	Epilepsy	Alcohol Use
